

Blockchain Developer

Fulltime Zurich

About Us

B3i is a growing and dynamic business operating in the global insurance market. We are at the forefront of bringing real innovation into the industry through Blockchain solutions which we believe will transform the industry.

Our vision is simply to **make insurance more relevant, accessible and affordable**. We have a flat management structure with a start-up mentality and are very ambitious; we want determined and enthusiastic people to share our vision and join us on this journey of innovation.

What you will bring on a professional level

- Strong knowledge of Java or Kotlin development, tooling and ecosystem
- Strong object-oriented development
- Some knowledge about Blockchain, distributed ledger and networks
- Agile software development experience including experience of agile tools such as JIRA
- Experience of working on multi-layered projects, understanding their architecture and dev-ops
- It would be great, if you have R3 Corda development experience

What we offer

B3i offers a competitive salary plus Bonus including flexible working time and location, no limited holidays, gym membership, sabbatical programme. You will work with a great bunch of people who are really making history in central Zurich.

To apply for a job please send your CV and a covering note or short digital video/ audio clip to jobs@b3i.tech.

What You Will Do

- You will develop distributed insurance applications and services on using R3 Corda technology
- You work with highly skilled and motivated engineering team
- You can bring in your design and engineering capabilities to create innovative solutions
- Your code and applications will run on a global distributed network

and on a personal level

- Share your knowledge, insight and learning openly
- Open to feedback and challenges from the team
- Curious to learn new skills
